PROGRAM OVERVIEW

The Child Development Program offers various educational options. Completion of each program leads to a certificate, transfer option and/or an Associate in Arts degree. With additional general education units and required experience, the student will be eligible for the Child Development Permit as defined under Title 5. Meeting this requirement will enable the student to teach in both Federal and State preschool programs.

The Child Development courses provide training in infant and toddler care; working with school age children: supervising and administering childcare programs, as well as working with special needs children. Students who complete this degree program will be proficient in the methodology of working with young children through the extensive overview of theories and application of child development, the development of curriculum and lesson planning techniques, ways to observe and record child behavior, and classroom management techniques. This curriculum prepares student to teach in programs for children including: private facilities, parent cooperative, Head Start programs, Children's Centers and infant/toddler or school age programs. In addition, this program also prepares students to transfer to four year universities in either Child Development or Teacher Education majors.

PLANNING AHEAD:

MANTOUX TEST (TB TEST): Some Child Development courses may require you to obtain a Mantoux test for Tuberculosis. The college Health Center provides this service. Please call ahead for days and times the Health Center provides this service.

VACCINATION LAW: As of September 1, 2016 under SB 792, day care centers, family day care homes and preschools as part of their licensure requirements, will have to maintain vaccination records for their employees and volunteers for influenza, pertussis, and measles. Obtaining verification of vaccination records is required for all school and center observations, volunteering and practicum experience in child development courses.

CRIMINAL CLEARANCE: In order to fulfill State licensing requirements for employment in private and public programs you must receive a Criminal Clearance to work with young children. Consult with faculty for additional information.

CPR CLASS: Your employer may require you to take a 15-hour Cardiopulmonary Resuscitation class. This class covers training on basic first aid for infants and children, CPR techniques as well as information on basic health and sanitation procedures.

PROGRAM LEARNING OUTCOMES (PLOs)

Upon completion of the **Certificate** programs, students are able to:

1. Students will be able to employ appropriate responsive care techniques when providing care for children from infancy to school age in diverse populations, including special needs children, in adherence with Title 22 Regulations for licensed childhood programs.
2. Students will be able to administer appropriate supervision practices for children from infancy to school age in diverse populations, including special needs children, in adherence with Title 5 and Title 22 Regulations for licensed childhood programs.
3. Students will be able to demonstrate the use of systematic child assessment strategies to plan learning activities and guide decisions about curriculum and teaching strategies.
