

# Weekly Message from President Larry Frank

## COLLEGE TO CAREER. IT'S ALL HERE.

**TUESDAY, JUNE 26, 2018**

As we start the third week of Summer 2018, I hope you're settling into your classes. Make sure you visit the Bridges to Success office in Mariposa Hall if you have any questions about any aspect of the campus. Counselors are more available over summer session than during Fall and Spring semesters, as is Financial Aid and all of our student services. And it is never too early to visit Academic Connections and other locations on campus for help with tutoring. Also, please enroll in Fall classes as soon as possible, before they fill up. It also helps us to know which classes are going to make minimum enrollment, so we do not have to cancel classes which causes a hardship for faculty and students.

---

### FOOD PANTRY EVERY TUESDAY MORNING

This Tuesday morning – and every Tuesday morning – we have a food pantry program just for students. Show your ID and you can access fresh produce, food items, and drinks every Tuesday from 10:30am to noon in the K-mall. We encourage you to come by and take advantage of the program, which is a partnership with the St. Francis Center nearby. And if you know a student with a real hardship, let them know that the food pantry at the St. Francis Center on Hope Street just north of Washington is open five days a week. And if you want to do some volunteering, they can definitely use the help.

## VISIT FROM GERMANY PRESIDENT FRANK-WALTER STEINMEIER

Last Monday, the President of Germany stopped by Trade Tech to talk with us about apprenticeship programs, where hopefully our transportation students will get a chance to pioneer some of this work. Germany President Steinmeier spent time speaking with our students and faculty and was impressed. Thank you to our students who interacted with the President of Germany and his entourage.

## WOMEN IN THE TRADES CONFERENCE

On Saturday we hosted the Women in the Trades Conference and there were several Trade Tech students in the audience learning about the opportunities available to them. Women are looking to train in high-demand union jobs, and the LA/OC Building Trades organizers delivered plenty of information and mentors connecting women to opportunities and support as some of our women students in the CMU Pathway move closer to the workforce.

Keep working in your classes, and we encourage you to enroll in Fall classes as soon as possible.
